DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 19, 20, 33 and 37-39 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

These claims appear to depend on the wrong claims.

Claim 19 lacks a proper antecedent basis to claim 15. Claim 19 is directed to "the transmit calibration vector," while claim 15 is directed to "a downlink signature." It is not clear whether claim 19 should depend on claim 18 which is directed to "a transmit calibration vector."

Claim 20 lacks a proper antecedent basis to claim 15 for the same reasons as claim 19. See claim 18.

Claim 33 lacks a proper antecedent basis to claim 27. Claim 33 is directed to "each transmit chain," while claim 27 is directed to "the receive chain." It is not clear whether claim 33 should depend on claim 32 which is directed to "each antenna has a corresponding transmit chain and a corresponding receive chain."

Claim 37 lacks a proper antecedent basis to claim 36/27. Claim 37 is directed to "each receive chain," while claim 36/27 is directed to a single "receive chain." It is not clear whether claim 37/36 should somehow depend on claim 32 which recites the plurality of receive chains.

Claim 38 lacks a proper antecedent basis to claim 36. claim 38 is directed to "each receive chain," while claim 36/27 is directed to a single "receive chain." It is not clear whether claim 38/36 should somehow depend on claim 32 which recites the plurality of receive chains.

Claim 39 lacks a proper antecedent basis to claim 36/27. Claim 39 is directed to "the transmit chain," while claims 36/27 is directed to "the receive chain." It is not clear whether claim 39/27 should somehow depend on claim 32 which recites the "transmit chain."

Allowable Subject Matter

3. Claims 1-18, 21-32, 34-36 and 40-43 are allowed.
4. Claims 19, 20, 33 and 37-39 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
5. The following is a statement of reasons for the indication of allowable subject matter: the prior art of record fails to anticipate or make obvious the feature of the transponder signal based on the calibration signal having a bandwidth narrower than the minimum bandwidth of the communication signals.
